

Live webinar

A live webinar is an online version of the classic face-to-face seminar. These are run at a particular time and attendance is necessary to gain the associated CPD points.

Add the date and time to your calendar and make sure that you check your technology set up prior to the start of the webinar so that you do not miss out.

For more information about the CPD rules [click here](#).

To access the webinar on the day, log in to LawInform and navigate to 'My Learning' and 'My active courses' and it will be listed there.
